Date of Birth: 26.05.1994

Online Studies JANUARY 2023 – Present  
Udemy Academy  
Full Stack Developer

UNIVERSITY Working Experience MAY 2021 – DECEMBER 2022  
Scientific Assistent  
WHS-Gelsenkirchen  
After achieving my master degree, I continued my work at the westphalian university on a research project. I was the leading project figure and responsible for managing the workforce as well as programming the used hardware components. This included scheduling meetings, creating timetables, as well as supporting and coordinating the other employees in their tasks to reach the milestones of the project.

UNIVERSITY (MASTER) SEPTEMBER 2018 – DECEMBER 2020  
WHS-Gelsenkirchen  
Microsystem Technologies

Working Experience SEPTEMBER 2019 – JANUAR 2021  
1PCB Design and C-Programming  
ProPuls GmbH  
While studying for my masters degree I worked as a bachelor engineer at ProPuls. ProPuls is a service company involved in several university and industry projects. My job was to carry out sub-projects. On the one hand, this includes the programming of microcomputers, as well as learning the programming environment and the hardware used. In addition, I got the opportunity to develop my own PCB hardware for a test bench. In addition to the design and the layout, the circuit board was assembled and assembled by me.

UNIVERSITY (BACHELOR)  
WHS-Gelsenkirchen  
Technical Physics  
(Main Subject Microtechnologies)

SEPTEMBER 2015 – AUGUST 2018

SCHOOL  
Hans-Sachs-Berufskolleg  
Fachhochschulreife  
(Schwerpunkt Elektrotechnik)

AUGUST 2014 – JUNE 2015

WORKING EXPERIENCE  
Elektroniker für Betriebstechnik  
Bei E.ON Kraftwerke GMBH

FEBRUAR 2014 – JUNE 2014

In my job as an employee at the Scholven power plant, I was responsible for the maintenance, repair and expansion of electrical systems. Depending on the area of application, I was able to use my skills to plan circuits and also implement them. This work included both programming and manual tasks.

APPRENTICESHIP  
Elektroniker für Betriebstechnik  
Bei E.ON Kraftwerke GMBH

SEPTEMBER 2010 – JANUAR 2014

Während meiner 3 ½ jährigen Ausbildung als Elektroniker für Betriebstechnik hatte ich die Chance meine handwerklichen, sowie technischen Fähigkeiten zu entwickeln. Bei Einsätzen innerhalb des Unternehmens lernte ich Verantwortung zu übernehmen und meine Arbeiten zuverlässig auszuführen.

SCHOOL  
Realschule an der St. Michaelstraße
